## 72nd Annual Conference

### Embracing Change and Diversity in Public Opinion and Social Research

Greetings!

Welcome to New Orleans and the 72nd annual conference of the American Association for Public Opinion Research (AAPOR). We appreciate your participation and contributions at this **premier event for public opinion and survey research professionals**.

Our theme, *Embracing Change and Diversity in Public Opinion and Social Science Research*, signals AAPOR's willingness to welcome both the challenges and opportunities presented by a rapidly changing public opinion and research methodology landscape and an increasingly diverse population. We received a record number of proposals during the submission process, leading to a record number of sessions.

Prepare to hear talks on the latest, cutting-edge research on data collection, emerging methods and innovations, sampling, questionnaire design, interviewing, and methods to increase survey participation as well as substantive findings from public opinion researchers on immigration, climate change, health, race, gender and religion. In addition, an unprecedented number of sessions focus on issues related to the election and polling, ensuring this conference stands at the forefront of scholarship and debate on the 2016 vote.

And while you make use of the enhanced AAPOR Conference App to select sessions, be sure to note the many other featured events we are offering this year including:

- A kick-off session on “Assessing the Climate for Surveys and Social Science Data Collection: A Conversation” in which featured speakers will ignite discussion on critical issues facing our profession;
- An expanded “New Member and All-Chapter Welcome Mixer and Chef Tasting Party” in which you can make new friends and reunite with old ones while sampling delicious New Orleans-inspired cuisine;
- Many other social, educational and professional development opportunities such as a workshop on unconscious bias, events for first-time attendees, students and young professionals, short courses, ResearchHack 3.0, “Meet the Authors” and activities designed to infuse New Orleans into the conference.

From the French Quarter and Bourbon Street to the Riverwalk and Warehouse District, we are located fewer than two blocks from everything you want to see. Now it's time to “laissez les bons temps rouler” in New Orleans in 2017! **#AAPOR**

## About AAPOR

Founded in 1947, the American Association for Public Opinion Research is the leading association of public opinion and survey research professionals.

The AAPOR community includes producers and users of survey data from a variety of disciplines. Our members span a range of interests including election polling, market research, statistics, research methodology, health related data collection and education.

Membership in AAPOR is all about opportunity – the opportunity to learn from a diverse group of leaders in the survey and public opinion research field, the opportunity to network and exchange knowledge and the opportunity to improve how survey research is conducted and disseminated.

### Kick-off General Session

#### **Assessing the Climate for Surveys and Social Science Data Collection: A Conversation**

Thursday, May 18, 2:00 p.m. – 3:30 p.m.

Grand Ballroom, Fifth Floor

Our kick-off session features experts from a range of disciplines discussing: 1) the changing climate for surveys and social science data collection; 2) societal and other forces shaping that climate; and 3) steps we might take to brighten the forecast. Challenges we focus on include declining response rates, proliferation of big data, distrust of institutions and surveys, competition from junk science and pseudo-surveys, increasing regulation, and culling the best of new research methodologies and technology. Experts at the forefront of these issues provide perspective and engage with other panel members in conversation regarding the current state and future of our profession.

Featured speakers include Claudia Dean (Vice President of research at Pew Research Center), John Dick (Founder and CEO of CivicScience), Peter Miller (Senior Researcher for Survey Measurement, U.S. Census Bureau), and Margie Omero (EVP of Public Affairs at PSB Research), with the panel moderated by Michael Link (Division Director at Abt Associates).

**Claudia Deane** is the vice president of research at Pew Research Center. In this role, she works across the Center's subject areas with the goal of coordinating the research agenda, increasing collaboration across teams, setting uniform standards, editing final products and developing new data sources, methods and tools. She played a key role in the launch of the

Center's new Data Labs team, whose mission is to use computational methods to complement the organization's ongoing work. Prior to joining Pew Research Center, Deane served as the Associate Director for Public Opinion & Survey Research at the Kaiser Family Foundation, where she directed a variety of large scale survey projects focused on understanding the public's views on domestic health policy issues. Her work there appeared in outlets including the New England Journal of Medicine, Health Affairs, and the edited volume American Public Opinion and Health Care (CQ Press, 2011). She also spent eight years as the Assistant Director of Polling at The Washington Post, part of a two-person team responsible for all aspects of conducting and reporting surveys in the news pages.

**John Dick** is a serial entrepreneur with extensive experience in new business formation, business development, marketing and communications. He is a frequent speaker at the Carnegie Mellon University Don Jones Center of Entrepreneurship, an accomplished writer with regular contributions to AdAge, the HuffingtonPost and Forbes and has appeared on Good Morning America, the AXS TV Grammy Prediction Special and as a speaker at numerous market research and business conferences.

**Peter V. Miller, PhD**, is a Senior Researcher for Survey Measurement at the United States Bureau of the Census. He joined the staff of the Census Bureau in 2011. He is a member of the Federal Committee on Statistical Methodology and chairs its Nonresponse Bias Working Group. He also co-chairs a Task Force on Improving the Climate for Surveys,

sponsored by the American Association for Public Opinion Research and the American Statistical Association. He is an adjunct faculty member in the Joint Program on Survey Methodology.

Before arriving at Census, Miller spent 29 years on the faculty at Northwestern University, where he holds an appointment as Professor Emeritus. Miller was Editor-in-Chief of Public Opinion Quarterly from 2001 to 2008. He is the editor of a special issue of POQ on "Survey Research, Today and Tomorrow," which will be published in 2017. He has held several elective offices in the American Association for Public Opinion Research (AAPOR), most recently serving as President in 2009-2010. During his tenure as President, Miller launched the Association's Transparency Initiative.

Miller received the Harry W. O'Neill Award for Outstanding Achievement from the New York Chapter of AAPOR in 2012. He was also named a Fellow of the Midwest Chapter of AAPOR in 2012. In 2015, he was named a Fellow of the American Statistical Association.

Miller was born in Pontiac, Michigan and earned AB and PhD degrees at the University of Michigan.

**Margie Omero** is the new EVP of Public Affairs at PSB Research, a strategic research company with offices around the world. She has over 20 years of experience managing all facets of qualitative and quantitative research including everything from methodological design to business development and strategic analysis. Her clients have included some of the world's biggest brands, such as Kellogg's, McDonald's, and Facebook, as well as non-profit and advocacy groups such as the DNC, The Center for American Progress, Everytown for Gun Safety, and Compassion and Choices. Omero has also led the bipartisan team studying Walmart Moms—a proven swing voting bloc covered by most major news outlets.

Omero is the creator and co-host of a top-200 podcast The Pollsters, covering the polls driving news in politics, tech, entertainment and pop culture. It's the only podcast exclusively focusing on polling in the United States, and has been featured by iTunes, Google, and others.

A frequent writer, commentator, and speaker, Margie has appeared on ABC's "This Week," NPR's "Morning Edition," MSNBC's "Morning Joe," Fox News Channel's "The O'Reilly Factor," and in The New York Times, The Washington Post, and USA Today. Margie speaks regularly before groups of lawmakers, business leaders, journalists, and students.

Omero has been named one of "50 Politicos to Watch" by Politico, a "Mover and Shaker" by Campaigns & Elections magazine, a "Young Woman of Achievement" by the Women's Information Network, and "Rookie of the Year" by the American Association of Political Consultants.

Before joining PSB, Omero was Managing Director of Purple Insights, the research division of Washington-based Purple Strategies. Margie also founded and ran Momentum Analysis, a Democratic public opinion research firm in Washington, DC. Momentum Analysis clients have included major party committees, EMILY's List, Members of Congress, non-profits and hundreds of campaigns around the country.

Omero graduated from the University of Texas at Austin, with High Honors and Special Honors in the University honors program, and wrote her honors thesis using longitudinal survey data. She is professionally and academically trained in statistics and sampling, and is a professionally-trained focus group moderator with experience leading over a thousand qualitative sessions. She lives in Takoma Park, Maryland.

**Michael W. Link, Ph.D.** is the Division Vice President for the Data Science, Surveys & Enabling Technologies (DSET) Division at Abt Associates, a leading, global provider of policy-based research and evaluation for government, academic, foundation, and commercial clients. Prior to this he was President and CEO of Abt SRBI (a former subsidiary of Abt Associates).

With more than 30 years of experience in the field of data collection, Dr. Link is a past President of the American Association for Public Opinion Research, 2014-2015. His research efforts focus on developing methodologies for confronting the most pressing issues facing measurement and data science, including use of new technologies such as mobile platforms, social media, and other forms of Big Data for understanding public attitudes and behaviors. Along with several colleagues, he received the American Association for Public Opinion Research 2011 Mitofsky Innovator's Award for his research on address-based sampling. His numerous research articles have appeared in leading scientific journals, such as *Public Opinion Quarterly*, *International Journal of Public Opinion Research*, and *Journal of Official Statistics*.

### AAPOR Book Sale and Meet-the-Author Events

Friday, May 19, 3:15 – 4:15 p.m.

Saturday, May 20, 12:45 – 1:45 p.m.

Join us in the exhibit hall for the annual AAPOR book sale and Meet-the-Author activities. Each year, AAPOR displays titles from top publishers in public opinion and social science research. Find inspiration for upcoming research, browse potential textbooks for your classes, or simply indulge the inner bookworm. All titles will be available for purchase at the Book Sale on Saturday, May 20. Proceeds go to support AAPOR's annual operations.

The AAPOR Meet-the-Author event gives you a chance to chat with your favorite writers and thinkers in a relaxed environment. This year, we're holding two sessions. During the dessert break on Friday (3:15 – 4:15 p.m.), come meet the editors of *Survey Practice*, JSSAM, and *Public Opinion Quarterly*, as well as the authors and editors of *Total Survey Error in Practice*. During the Saturday dessert break (12:45 – 1:45 p.m.), the book exhibit hosts the 2017 Book Award winner, as well as the writers responsible for some of the year's most thought-provoking books and edited volumes. Come ask questions, learn about the process behind the writing, and perhaps even get your book signed.

### Professional Development Session: The Intersection of Inclusive Leadership and Unconscious Bias

Saturday, May 20, 3:30 p.m. – 5:00 p.m.

Rodrigue Gallery, First Floor

AAPOR's Professional Development Committee is thrilled to bring Todd Corley of the TAPO Institute to give a workshop on unconscious bias. Todd brings a wealth of experience in diversity consulting, including his work at Abercrombie & Fitch, where the *Huffington Post* called him, "the man who made Abercrombie & Fitch less white, male." In this session,

we'll examine where unconscious bias meets inclusive leadership and walk away with concrete steps on how to build, implement and strengthen diversity and inclusion principles within your organization.

### AAPOR Membership and Business Meeting

Saturday, May 20, 5:15 p.m. – 6:45 p.m.

Waterbury Ballroom, Second Floor

AAPOR members are encouraged to attend the Annual Business Meeting to learn more about the past year's accomplishments and future initiatives of the association. We are pleased to introduce a new format this year that will provide more time for Q&A.

### President's Reception & AAPOR Awards Banquet

Saturday, May 20, 7:00 p.m. – 10:00 p.m.

Armstrong Ballroom, 8th Floor and

Grand Ballroom, Fifth Floor

AAPOR's traditional Saturday night program is a chance to enjoy a cold drink at the President's Reception before joining colleagues for a delicious meal at the Annual Awards' Banquet. Join us to toast the award winning accomplishments of AAPOR members and to welcome the newly elected Executive Council.

Don't miss the Second Line Parade leading guests from the President's Reception on the 8th floor to the Awards Banquet on the 5<sup>th</sup> floor! A New Orleans Tradition!

## AAPOR Diversity Statement

The American Association for Public Opinion Research embraces diversity and inclusion as institutional imperatives, as noted in the AAPOR2025 Strategic Vision. Only by promoting an environment where differences in backgrounds, experiences and perspectives are valued will AAPOR fully serve its members and remain vital in the future.

It is therefore the policy of AAPOR to include members in all activities of the association regardless of their gender, age, race, religion, ethnic background, nationality, sexual orientation, disability status, or any other category protected by federal, state and local laws. AAPOR further seeks to reflect the diversity of its membership in thought and professional experiences, and pledges to equally value members regardless of their tenure within the profession, whether or not they are currently employed, and if employed regardless of the size of their workplace or whether that workplace is in aca-deme, the government, business, the media or another setting.

AAPOR leaders have an obligation to identify any roadblocks to inclusion and work within the association to eliminate them. We also recognize that each AAPOR member has a personal responsibility to create, maintain and enhance a culture of inclusion within the association where every member is appreciated, differences in perspectives are respected and paths to leadership are open to all.

By working together, our individual differences make our association stronger. Only by actively nurturing a culture of diversity and inclusion will we fully serve our current membership and prepare future AAPOR members for the needs of an ever-changing world.

Sponsored by 

**Meet at 7:00 a.m. in the hotel lobby.**

The AAPOR Annual Golf Outing will be held on Thursday, May 18, at Bayou Oaks City Park North with tee times starting at 7:30 a.m. The newly opened Bayou Oaks Golf Course at City Park was rebuilt after near destruction by Hurricane Katrina. The course offers four sets of tees ranging in length from almost 5,740 yards at the tips to just about 4,300 yards from the Gold Tees. City Park offers a challenging yet fun round for all levels of golfers!

Advanced registration is required.

### Speed Networking – Two Sessions

**Session 1: Friday, May 19, 3:15 p.m. – 4:15 p.m.**

**Session 2: Saturday, May 20, 12:30 p.m. – 2:00 p.m.**

**Endymion, Eighth Floor**

Two Speed Networking sessions are offered each year at the annual conference. These interview opportunities are designed for anyone who is exploring career possibilities.

These sessions are not intended for commercial activities.

A list of participating companies and a sign-up sheet for 15-minute sessions will be available at the AAPOR registration desk. Be sure to bring plenty of business cards!

### CCMR (Cross Cultural and Multilingual Research Group) Affinity Group Dinner and Meetup

**Sponsored by nielsen**

The run/walk will depart from the main entrance of the Sheraton New Orleans at 7:00 a.m.

If you would like to enter into some competitive early morning exercise, or simply enjoy some fresh air along the Mississippi River, this is just for you! All participants will receive bottled water. Volunteers will be available on Saturday morning to guide participants to the starting line. Advance registration is not required. A waiver must be signed on site to participate. Awards will be given to the top runners and to record-breaking walkers.

Registration begins at 6:30 a.m. near the main entrance of the Sheraton New Orleans.

### Post Banquet Cabaret Lounge

**Saturday, May 20, 10:00 p.m. – 1:00 a.m.**

**Waterbury Ballroom, Second Floor**

If hitting the nightclubs of New Orleans isn't your thing, we encourage you to catch up with friends – old and new – at AAPOR's Post Banquet Cabaret Lounge. Featuring live jazz music and cabaret style seating, provides one last chance to visit with your AAPOR friends before the conference ends on Sunday.

### Poker “Fieldtrip” to Harrah’s

**Saturday, May 20, 10:00 p.m.**

Has poker been “solved”? Poker is a game of incomplete information employing heavy doses of both probability theory and psychology, but recently an AI-based bot (Libratus, built by researchers at Carnegie-Mellon) bested four of the best poker players in the world. Fortunately for us, Libratus will not be playing at AAPOR—but you can! Join us for a field trip to the nearby Harrah's Casino, where AAPORites can show off their probability, math and psychology skills against poker players from around the world.

The “Fieldtrip” will depart from the hotel lobby immediately following the Awards Banquet.

## 2017 Award Winners

### Book Award

The AAPOR Book Award seeks to recognize influential books that have stimulated theoretical and scientific research in public opinion; and/or influenced our understanding or application of survey research methodology.

#### Winner:

Susan Herbst, *University of Connecticut Numbered Voices: How Opinion Polling Has Shaped American Politics*

### Policy Impact Award

The AAPOR Policy Impact Award was developed to acknowledge that a key purpose of opinion and other survey research is to facilitate better informed decisions. The award recognizes outstanding research that has had a clear impact on improving policy decisions, practice, and discourse, either in the public or private sectors.

#### Winner:

The International Tobacco Control Policy Evaluation Project

### Warren J. Mitofsky Innovators Award

The Warren J. Mitofsky Innovators Award is designed to recognize accomplishments in the fields of public opinion and survey research that occurred in the past ten years (2000 to present), or that had their primary impact on the field during the past decade. These innovations could consist of new theories, ideas, applications, methodologies or technologies. To be considered for the award, they must be publically documented. The award can be given to individuals, groups or institutions.

#### Winner:

Don A. Dillman, *Washington State University*; Leah Melani Christian, *Nielsen*; Michelle Edwards, *Texas Christian University*; Benjamin Messer, *Research-Into-Action*; Morgan M. Millar, *University of Utah*; and Jolene D. Smyth, *University of Nebraska - Lincoln*, for web-push data collection methodology that uses postal mail contacts to request a web response while withholding alternative response modes until later in the data collection process. Their methodology is now being used by the U.S. Census Bureau and in many countries to conduct major surveys relevant to public policy decisions.

### Burns "Bud" Roper Fellows

The Burns "Bud" Roper Fellow Award is named for the late Burns "Bud" Roper who provided a substantial bequest in his will to establish the Roper Award Fund. Roper Fellows are people whose primary work responsibilities are related to survey research or public opinion and who have recently started their careers.

#### Winners:

Audris Campbell, *Gallup*

Kerry Driscoll, *Claritas*

Kristin Dwan, *NORC at the University of Chicago*

Kyle Endres, *Duke Initiative on Survey Methodology*

Dana Garbarski, *Loyola University*

Bevin Mory, *Mathematica*

Jocelyn Reynolds, *Oppenheim Research*

Luis Sanchez-Conde, *Civis Analytics*

### Seymour Sudman Student Paper Competition Award

The Seymour Sudman Student Paper Competition Award is in memory of Seymour Sudman; it recognizes his many important contributions to AAPOR as well as his teaching and mentoring students in the survey research profession.

#### Winner:

Ozan Kuru, *University of Michigan*

Complexity of Public Opinion in the Digital Age: What do Ordinary Citizens Make of Diverse Quantifications

#### Honorable Mention:

Sarah Lessem, *University of Wisconsin-Madison*

Evaluation of Algorithms to Determine Diabetes Type in Health Surveys

## 2017 Award Winners

### Student Travel Award

The AAPOR Student Travel Award was established to support student attendance at the AAPOR Annual Conference. The Student Travel Awards are offered to students who are in need of financial support so that they may attend the annual conference and experience this important educational and collegial event for survey methodology and public opinion researchers. The Student Travel Awards are made possible by contributions from AAPOR Members to the general fund.

#### Winners:

Isabel Anadon, *University of Wisconsin-Madison*  
Ruben Bach, *Institute for Employment Research*  
Shakari Byerly, *University of California-Los Angeles*  
Hyesun Choung, *University of Wisconsin-Madison*  
Beth Cochran, *University of Nebraska - Lincoln*  
Britany Gatewood, *Howard University*  
Rebecca Grady, *University of California-Irvine*  
Jan Karem Höhne, *University of Göttingen*  
Tom Holub, *University of California-Berkley*

David Houston, *Columbia*  
Eunji Kim, *University of Pennsylvania*  
Carli Lessof, *University of Southampton*  
Kathleen Rogers, *Rutgers University*  
Mazen Sarwar, *University of Nebraska - Lincoln*  
Sharan Sharma, *University of Michigan*  
Enrijeta Shino, *University of Florida*  
Marina Stavrakantonaki, *University of Illinois-Chicago*  
Alexander Wenz, *University of Essex*

## AAPOR Webinar Series and Recordings

### Live Webinars

Throughout the year, AAPOR offers live webinars presented by the most respected leaders in public opinion and survey research field. Learn the latest methods and findings, at an attractive price, without leaving your desk.

### Recordings Library

Learn from the most respected leaders in the public opinion and survey research field at a time that's convenient for you. AAPOR now offers an institutional subscription to our recorded webinars that can be shared within an institution to other branches, offices, faculty, staff, and others.

Choose from more than 30 topics, including:

- Population-based surveys
- Address-based sampling
- Cell phone surveying
- Social networking
- and more.

## Course 1:

### Dashboards for Active Survey Monitoring

**Instructor:** Brad Edwards, Westat

**Location:** Nottoway, Fourth Floor

#### Course Overview:

What is a dashboard? The term surfaced in business information systems in the 1990s and became popular in the last decade, but has made only occasional appearances in the survey research literature.

Dashboards can support clients, project directors, survey methodologists and managers with critical information for decision-making at a glance, on a single screen. They can present alerts about unusual events that fall too far from the mean to be considered random noise. They can serve as a portal for drilling down into survey data, paradata, and other data bases to investigate problems. In surveys that use adaptive design, they can inform users when it is prudent to change protocols. In this short course we define business dashboards and discuss their advantages for monitoring key performance indicators in surveys. We describe the basic kinds of dashboards (strategic, operational, performance), defined by different user groups and needs. Visualization is a critical component. Examples illustrate design principles and pitfalls. The core content of the course is an introduction to dashboard design and data visualization principles, and techniques for applying them in the context of web, telephone, mail and face-to-face surveys.

## Course 2:

### Sexual Orientation and Gender Identity (SOGI) Measurement in Surveys: History and Best Practices from Kinsey to CHIS and NHIS

**Instructor:** Matt Jans,  
Abt Associates

**Location:** Oak Alley, Fourth Floor

#### Course Overview:

Sexual orientation and gender identity (SOGI) have been studied for decades, but have only recently been included in large-scale, general-population surveys and polls. This course traces the history of SOGI measurement from early studies (e.g., Kinsey), to probability-based surveys like the General Social Survey (GSS), the California Health Interview Survey (CHIS), the Behavioral Risk Factor Surveillance System (BRFSS), and the National Health Interview Survey (NHIS). This historical perspective is bolstered by quantitative literature on SOGI questions, including pretesting results. Drawing on published best

practices, several methods of asking SOGI are addressed, with commentary on their resulting prevalence rates across surveys. These are discussed in the context of current efforts within the US Federal Statistical System to promote SOGI measurement in Federal surveys broadly (e.g., the OMB Federal Interagency Working Group on SOGI Measurement). Recommendations for including SOGI questions in surveys of various modes are discussed, highlighting successes from CHIS, NHIS, and other large-scale interview-based surveys. This course will benefit anyone working with or wanting to work with SOGI data, and survey researchers tasked with adding SOGI questions to their surveys. Open questions in the study of SOGI and the future of SOGI measurement in surveys will be discussed as well.

## Course 3:

### Mixed-Mode Surveys: An Overview of Estimation and Adjustment Methods and Empirical Applications

**Instructor:** Z. Tuba Suzer Gurtekin,  
*University of Michigan*

**Location:** Maurepas, Third Floor

#### Course Overview:

Although data collection mode decision has always been one of the key components in survey designs, recently survey researchers face a greater complexity in data collection mode decisions. This increasing complexity is a result of the technological developments and the better understanding of how mode affects measurement error in particular. Briefly, mixed-mode surveys use a combination of data collection methods to increase coverage, response rates and data quality. Mixed-mode survey design process involves dynamic survey error trade-off discussions which simultaneously rely on empirical findings, practical knowledge and theory. As a result, there is an extra burden on the survey researcher to be aware of the specific gaps and the assumptions that are made in specific designs and what the implications of these assumptions are for the survey inference. Class will cover specific common designs, motivations behind these common designs including the data analysis methods specifically in the presence of selection effects.

## Short Course 4, 5 & 6 Descriptions

**Thursday, May 18, 8:00 a.m. – 11:30 a.m.**

**Course 4:**  
**An Introduction to Practical Text Analytics for Qualitative Research**

**Instructors:** Andrew Stavisky,  
*U.S. Government Accountability Office*  
Philip Resnik, *University of Maryland*

**Location:** Nottoway, Fourth Floor

**Course Overview:**

Text analysis has become increasingly more popular as practitioners look for ways to sort, categorize, compare and distill meaning from unstructured text data. These data include, for example, transcripts and notes from focus groups, in-depth interviews, speeches or ethnographies, open-ended survey questions, and social media posts, tweets, or blogs. We will cover the current state of text analysis for qualitative research, including methods or basic text summaries and analyses, document categorization and corpus comparison, as well as text annotation and sentiment analysis. We will also discuss current directions in text analytics for qualitative researchers, including the movement toward natural language processing and topic modeling, which takes text analysis from sorting, counting and categorization to thematic analysis of data. We will talk about some of our own work, both in the examination of the text analytic process and in natural language processing and topic modeling. We will also demonstrate a practitioner-friendly tool we are developing to address some of the key pain points in qualitative data analytics.

**Course 5:**  
**Visual Design for Single- and Mixed-Mode Surveys**

**Instructors:** Jolene Smyth,  
*University of Nebraska - Lincoln*

**Location:** Oak Alley, Fourth Floor

**Course Overview:**

This talk will focus on how to achieve more effective and functional survey designs and layouts. The focus will be primarily on mail and web surveys, but some attention will be given to visual design for interviewers in in-person and telephone surveys. The course will also cover visual design for mixed-mode surveys (i.e., how to achieve unified mixed-mode designs). The course will provide an overview of the mechanics of visual processing as well as key concepts from the vision sciences that can help surveyors think through how to accomplish their goals

with visual design. Throughout the course, examples of how the visual design concepts can be applied to a questionnaire to make visual processing more efficient and effective will be given. In addition, empirical evidence of the effectiveness of visual design elements will be provided. The examples will cover visual design issues at both the individual question level and at the level of whole pages or screens.

**Course 6:**  
**Into the Stream: An Introduction to Big Data Access for Survey Researchers and Social Scientists**

**Instructor:** Trent Buskirk,  
*University of Massachusetts - Boston*  
Adam Eck,  
*Oberlin College and Conservatory*

**Location:** Maurepas, Third Floor

**Course Overview:**

Many researchers portended that with the rise of Big Data, the need for survey-based data collection might wane or become obsolete. While Big Data can provide many insights, it often cannot answer the “why” question. Such insights then, in our opinion, are still well suited for survey research methods. However, with the age of rising costs, lower response and harder to reach populations of interest, we entertain the question of what help Big Data can provide survey researchers in order to improve survey questions, survey designs and analyses. Starting at the source, this short course takes a step back from data science/machine learning heavy courses to first ask “how can I collect the Big Data that I need to measure public opinion?” In particular, we highlight two popular approaches to Big Data collection and discuss their benefits and limitations. First, web scraping offers methods for collecting data from both structured and unstructured web pages. Second, data APIs offer portals for gathering (semi-) structured data as it is generated (or queried) by Big Data sources. We will illustrate both approaches with real-world examples and demonstrate their usage through various examples. Where applicable, R code will be provided to participants.

## Thursday, May 18 Kickoff General Session Panel

**Thursday, May 18, 2016, 2:00 p.m. – 3:30 p.m.**  
**Grand ballroom, Fifth Floor**

### **Assessing the Climate for Surveys and Social Science Data Collection: A Conversation**

**Moderator:** Michael Link, Abt Associates

**Panelists:** Claudia Deane, Pew Research Center  
John Dick, Civic Science  
Peter Miller, U.S. Census Bureau  
Margie Omero, Penn Schoen Berland

**Location:** Grand Ballroom, Fifth Floor

**2. Implications of Utilizing Consumer Grade GPS Receivers within a Transportation Research Application**

Josh DeLaRosa, Abt Associates

**3. The Practice of SMS Survey as Public Opinion Research in Japan**

Kentaro Watanabe, Osaka University  
 Yasuyuki Saito, The Asahi Shimbun

**4. Simulating the Effects of Changing Calling Parameters and Workload Size on Calling Efficiency: Insights from 2016 American Community Survey CATI Paradata**

Gregory J. Mills, U.S. Census Bureau

**5. NYC Non Profit Community Disaster Preparedness-Response and Recovery Readiness**

Janet L. Streicher, Baruch College, CUNY  
 Micheline Blum, Baruch College/CUNY  
 Douglas Muzzio, Baruch College/CUNY

**6. Are ‘Active’ Landline Numbers Really Active? The Effect of Landlines Not Used for Incoming Calls on True Landline Phone Penetration**

James Dayton, ICF International  
 Robert Tortora, ICF International  
 Alex Coleo, MFour Mobile Research

**7. Phone 2.0 – Technology Democratizes Access to Voice-Based Survey Methods for Better Results**

Mary McDougall, Survox Inc.  
 Allen Porter, Survox Inc.

**8. Improving the Net Promoter Score: Applying Survey Methodology Insights to the ‘Ultimate Question’**

Sebastian Lundmark, Stanford University  
 Jon A. Krosnick, Stanford University  
 Ellen Konar, Stanford University  
 Matt Berent, Matt Berent Consulting  
 Yphtach Lelkes, University of Pennsylvania  
 Ari Malka, Yeshiva University  
 Daniel Schneider, Regioconnect  
 Randall K. Thomas, GfK  
 Ana Villar, City University London  
 David Yeager, Stanford University

**9. What Participation, Modes and Costs Indicate about the Feasibility of a New Establishment Survey: The Community Health Policy Implementation Assessment**

Douglas B. Currihan, RTI International  
 Carol Pierannunzi,  
*Centers for Disease Control and Prevention*  
 Selma Moore,  
*Centers for Disease Control and Prevention*  
 Chris Stringer, RTI International  
 Patty LeBaron, RTI International  
 Kevin Wang, RTI International  
 Steve Gomori, RTI International  
 Devon Wachtmeister, RTI International

**10. Bully by Definition: Results of the 2015 National Crime Victimization School Crime Supplement Split-Ballot Experiment**

Melissa Cidade, ICF International

**11. How Survey and Big Data Can Work Together? Predicting Customer Engagement Score of Banks and Branches Based on Customer Panel Survey, Company Database and Data from Government Agencies**

Dan Yu, Gallup

## Poster Session #1

**Thursday, May 18, 2017, 3:30 p.m. – 4:30 p.m.**  
**Napoleon Ballroom, Third Floor**

**12. A Demonstration of New Approaches to SEM Model Evaluation with Survey Data**

Ana Lucia Cordova-Cazar,  
*University of Nebraska - Lincoln*  
 Larry Williams, *University of Nebraska - Lincoln*  
 Lok Wa Yuen, *University of Nebraska - Lincoln*  
 Sarah Deng, *University of Nebraska - Lincoln*  
 Mengyang Wang, *University of Nebraska - Lincoln*

**13. Drafting and Wording: Questionnaire Design in Conflict Environments**

Hafez Albukari, *Yemen Polling Ctr.*

**14. Who is Left Off Household Survey Rosters, but Picked Up by Probing?**

Sandra Luckett Clark, *U.S. Census Bureau*

**15. Who You Gonna Call? Impact of Prenotification Letter Personalization in Establishment Surveys**

Brian Orleans, *ICF International*  
 Thomas Brassell, *ICF International*  
 James Dayton, *ICF International*  
 Robert Tortora, *ICF International*  
 Andrew Blevins, *Pew Charitable Trusts*

Jieru Chen,  
*Centers for Disease Control and Prevention*  
 Nimesh Patel,  
*Centers for Disease Control and Prevention*  
 Marcie-jo Kresnow,  
*Centers for Disease Control and Prevention*

**17. A Sudden Shift in Sampling Strategy: Challenges in Implementation and Communication**

Colleen K. Porter, *University of Florida*  
 Joshua R. Tipperly, *University of Florida*

**18. BeHeardPhilly: 1 Year, 8,000 Members and 17 Surveys Later**

Nina Hoe, *Temple University*  
 Cody Spence, *Temple University*

**19. Do Incentives During Tracking Efforts Make a Difference?**

Natalia Ibanez, *Decision Information Resources, Inc.*  
 James Cooper, *Decision Information Resources, Inc.*  
 Leslyn Hall, *Redstone Research, LLC*  
 Jo Anna Hunter, *MDRC*

**20. Modeling Follow-up Survey Completion in an Adolescent Cohort Using Baseline Survey Predictors**

Robert Tortora, *ICF International*  
 Joanne Delk, *University of Texas*  
 Melissa B. Harrell, *University of Texas*  
 Cheryl L. Perry, *University of Texas*

**21. Can I Get Your Attention Please? Effects of Using a Question in the Email Subject Line to Improve Survey Response Rate**

Erin Czyzewicz, *SSRS*  
 Robyn Rapoport, *SSRS*  
 Eva Chiang, *George W. Bush Institute*  
 Catherine Jaynes, *George W. Bush Institute*

**22. Changing Immigration Laws and Their Impact on Attitudes within Qatar's Sponsorship System**

Nicole R. Buttermore, *GfK*  
Frances M. Barlas, *GfK*  
Randall K. Thomas, *GfK*

##### What's the Best Size for Matrix-style Questions in Online Surveys?

Rebecca Hofstein Grady, *SurveyMonkey*  
Mingnan Liu, *Facebook*

##### The Effects on Data Quality and Response Distributions of Horizontal and Vertical Question Orientation for Different Devices in Online Surveys

Johan Martinsson, *University of Gothenburg*  
Elias Markstedt, *University of Gothenburg*  
Delia Dumitrescu, *University of Gothenburg*

## Concurrent Sessions I

**Saturday, May 20, 2017, 3:30 p.m. – 5:00 p.m.**

### Session 5: 3MC

#### **Effective Strategies for Conducting Surveys with Low Income Populations (Panel)**

**Moderator:** Sara Skidmore,  
*Mathematica Policy Research*

**Discussant:** Deborah Herget, *RTI International*

**Location:** Bayside A, Fourth Floor

##### **Commercial Locating Database Efficacy for Telephone Surveys of Low-income Populations**

Kim Mook, *Mathematica Policy Research*  
Sarah Forrestal, *Mathematica Policy Research*

##### **Characteristics of Low-income Fathers Who Complete by Phone vs. Field**

Emily Weaver, *Mathematica Policy Research*  
Daniel Friend, *Mathematica Policy Research*

##### **An Operational View of the Digital Divide: Challenges and Opportunities in Engaging Low-income Populations with Disabilities in Web Surveys**

Holly Matulewicz, *Mathematica Policy Research*  
Karen Donelan,  
*Mongan Institute Health Policy Center*  
Forest Crigler, *Mathematica Policy Research*

##### **A Systematic Review of Data Collection Methods for Low-income Populations**

Kathleen Feeney, *Mathematica Policy Research*  
Daniel Friend, *Mathematica Policy Research*  
Tiffany Waits, *Mathematica Policy Research*  
Myley Dang, *Mathematica Policy Research*

### Session 6: POL

#### **The 2016 Election: Explanations and Implications**

**Moderator:** Michael Binder, *University of North Florida*

**Location:** Bayside B, Fourth Floor

##### **Understanding the 2016 U.S. Presidential Election Polls: Was Nonresponse Bias a Problem?**

Peter K. Enns, *Cornell University*  
Jonathon Schuldt, *Cornell University*

##### **The 2016 Election: How and Why it's President Trump**

Gary Langer, *Langer Research Associates*  
Gregory Holyk, *Langer Research Associates*  
Chad Kiewiet De Jonge, *Langer Research Associates*

Darby Steiger, *Westat*  
Leanne Heaton, *Westat*  
Jessica Behm, *Westat*  
Crystal MacAllum, *Westat*  
Jessica Stroop, *BJS*

### Session 8: DCol

#### **Improving Data Quality of Health Surveys**

**Moderator:** Ricki Jarmon, *Abt Associates*

**Location:** Gallier A/B, Fourth Floor

##### **Effects of Survey Mode on Responses to the CAHPS Hospice Survey of Care Experience: Results from a Randomized Experiment**

Layla Parast, *RAND Corporation*  
Marc Elliott, *RAND Corporation*  
Katrin Hambarsoomian, *RAND Corporation*  
Melissa Bradley, *RAND Corporation*  
Joan Teno, *University of Washington*  
Rebecca Anhang Price, *RAND Corporation*

##### **Validating Self-reported Incidence of Two Chronic Conditions among Ohio's Newly Enrolled Medicaid Population with Administrative Claims Data**

Rachel Tumin, *Government Resource Center*  
Michelle Menegay, *Government Resource Center*  
Michael Nau, *Government Resource Center*  
Daniel Weston, *Government Resource Center*  
Marcus Berzofsky, *RTI International*  
Timothy R. Sahr, *Government Resource Center*

##### **Health Insurance Statement Usage and Respondent Characteristics**

Jennifer Vanicek, *NORC at the University of Chicago*  
Lauren McNamara,  
*NORC at the University of Chicago*  
Nicholas Schluterman,  
*Centers for Medicare & Medicaid Services*

##### **The Role of Measurement Error Due to Old Age: Determining the Amount of Discrepancies in Pension Reports Using Administrative Data from Share-RV**

Patrick Lazarević, *TU Dortmund University*

##### **What Worked and What Didn't; Changes for the 2017 National Survey of Children's Health**

Jason Fields, *U.S. Census Bureau*  
Reem Ghandour, *HHS/HRSA/MCHB/OER/DE*  
Jessica Jones, *HHS/HRSA/MCHB/OER/DE*  
Leah Meyer, *U.S. Census Bureau*

## Short Course 7 Description

**Sunday, May 21, 2017, 8:00 a.m. – 11:30 a.m.**

**Course 7:**

**Designing Surveys to Combat Declining Response Rates and Increasing Data Collection Costs**

**Instructor:** Andy Peytchev, *University of Michigan*

**Location:** Bacchus, Eighth Floor

**Course Overview:**

There are a number of issues facing surveys today, but two preeminent challenges that have had profound effects are declining survey participation and increasing survey costs. The threat to probability-based survey inference has never been greater. Simplistic solutions such as allowing lower response rates and reducing sample sizes can threaten the precision and accuracy of survey estimates. As a result, there is increased need for more complex survey designs that protect the integrity of the survey estimates.

This course aims to provide background and practical tools to address declining response rates and the resulting risk of nonresponse bias through survey design. Multi-

phase, multi-protocol study designs are discussed, along with two-stage sampling for nonresponse. The use of statistical models during data collection for nonresponse bias reduction and models for cost reduction are introduced. Responsive and adaptive survey designs are introduced, in the special case of addressing nonresponse and cost.

Examples are presented from telephone, in-person, and multi-mode surveys. The examples are used to illustrate alternative approaches, as well as design decisions based on the relative importance of multiple objectives in a survey (e.g., bias reduction vs. variance minimization).

## Concurrent Sessions J

Sunday, May 21, 2017, 8:30 a.m. – 10:00 a.m.

**Session 1:** **POL**

**Tracking the Election to Understand Trump's Win**

**Moderator:** Laura Silver, U.S. Department of State

**Location:** Borgne, Third Floor

**A 2016 Election Polling Post-mortem:  
The ABC News/Washington Post Tracking Poll**

Gregory Holyk, Langer Research Associates  
Gary Langer, Langer Research Associates  
Chad Kiewiet De Jonge, Langer Research Associates  
Scott Clement, Washington Post

**RAND 2016 Presidential Election Panel Survey  
(PEPS) Polling Post-mortem: What Went Wrong?**

Michael Pollard, RAND Corporation  
Joshua Mendelsohn, RAND Corporation

**What We Learned from Conducting the  
Experimental USC Dornsife / Los Angeles Times  
2016 Election "Daybreak" Poll**

Jill E. Darling, University of Southern California  
Arie Kapteyn, University of Southern California  
Erik Meijer, University of Southern California  
Tania Gutsche, University of Southern California

**A Developmental Analysis of Trump Voters**

Jon Miller, University of Michigan

**Did the Tea Party Drive the Rise of Trump?**

Gustavo Sanchez, Civis Analytics  
Geoff Bakken, Civis Analytics

**Session 2:** **DCol**

**More Effects a la "Mode"**

**Moderator:** Donna Perlmutter, IMPAQ International

**Location:** Maurepas, Third Floor

**Disentangling Measurement Effects from Selection  
Effects in a Sequential Mixed-mode Experiment**

Rebecca Medway, American Institutes for Research  
Mengmeng Zhang, American Institutes for Research  
Cameron McPhee, American Institutes for Research  
Michael Jackson, American Institutes for Research

**Examining Mode Effects in a National Survey of  
Teachers and Principals**

Alina N. Kline, U.S. Census Bureau  
Joanna Fane Lineback, U.S. Census Bureau

**Emergency Department Patient Experience of Care  
Survey in the Discharged to Community Setting –  
A Randomized Feasibility Study**

Layla Parast, RAND Corporation  
Megan Mathews, RAND Corporation  
Anagha Tolpadi, RAND Corporation  
Marc Elliott, RAND Corporation  
Elizabeth Flow-Delwiche,  
Centers for Medicare & Medicaid Services  
Kirsten Becker, RAND Corporation

**How Much Does Mixed Mode Increase Response  
Rates? Evidence from a Randomized Mode  
Experiment in Hospitals**

Marc Elliott, RAND Corporation  
Katrín Hambarsoomian, RAND Corporation  
William Lehrman,  
Centers for Medicare & Medicaid Services  
Laura Giordano, Health Services Advisory Group  
Megan Beckett, RAND Corporation  
Julie Brown, RAND Corporation  
Elizabeth Goldstein,  
Centers for Medicare & Medicaid Services

Sunday, May 21

## Concurrent Sessions J

Sunday, May 21, 2017, 8:30 a.m. – 10:00 a.m.

### Session 5: Q&I

#### Got This on Your Calendar? Research on Events, Reference Periods and Dates

**Moderator:** Karen Stein, Westat

**Location:** Bayside A, Fourth Floor

##### Non-specific Reference Periods in Survey Questions: Understanding Survey Responses about Behaviors in a “Typical Week” vs. “Last Week”

Matthew Virgile, U.S. Census Bureau  
Jonathan Katz, U.S. Census Bureau  
Jasmine Luck, U.S. Census Bureau

##### Time after Time: Exploring the Impact of Fixed-start, Variable-length Reference Periods

Maura Spiegelman,  
*Statistics National Center for Education Statistics*

##### Timing of Transitions in the Event History Calendar of the 2014 SIPP Panel

Shelley Irving, U.S. Census Bureau  
Matthew Marlay, U.S. Census Bureau

##### Improving Reporting Date of Victimization Events in Mail Surveys

Douglas Williams, Westat  
J. Michael Brick, Westat  
W. Sherman Edwards, Westat  
Pamela Giambo, Westat  
Lynn Langton, Bureau of Justice Statistics

##### The Effect of Change in the CG CAHPS Survey Instrument Retrospective Period on Scores and Trends - A Case Study of Military Health Service Patients

Alan Roshwalb, Ipsos Public Affairs  
Kimberley Aiyelewo,  
*Decision Support Division, Defense Health Agency*  
Richard R. Bannick,  
*Decision Support Division, Defense Health Agency*  
Sharon I. Beamer,  
*Bureau of Medicine and Surgery,  
Department of the Navy*  
Janice Ellison, Air Force Medical Operations Agency  
Melissa D. Gliner,  
*Decision Support Center, Army Medical Command*

Terry A. McDavid,

*Decision Support Center, Army Medical Command*

Daniel Muraida,

*Air Force Medical Operations Agency*

Mark Andrews, *Ipsos Public Affairs*

Zachary Lewis, *Ipsos Public Affairs*

### Session 6: Inv

#### Using Paradata to Improve Survey Administration

**Moderator:** Colleen Porter, *University of Florida*

**Location:** Bayside B, Fourth Floor

##### Using Paradata to Measure Respondent Engagement

Margaret L. Hudson, *University of Michigan*  
Andrew L. Hupp, *University of Michigan*  
Heather M. Schroeder, *University of Michigan*  
Andrew D. Piskorowski, *University of Michigan*

##### Exploring the Potential Use of Paradata Models to Inform Survey Extension Decisions

James Lawrence, *U.S. Census Bureau*

##### Using Audit Trails to Support Questionnaire Design Improvements

Renee M. Gindi, *National Center for Health Statistics*  
Carla Zelaya, *National Center for Health Statistics*

##### Estimation of Survey Cost Parameters Using Paradata

James Wagner, *University of Michigan*

##### Using Timing Metadata for Data Validation and Quality Control: The NLSY97 Case Study

Ilana Ventura, *NORC at the University of Chicago*  
A. Rupa Datta, *NORC at the University of Chicago*

## Concurrent Sessions J

**Sunday, May 21, 2017, 8:30 a.m. – 10:00 a.m.**

**Session 7:** Prob/Non

### Panel Session on Panels Organized by PANJAAPOR

**Moderator:** Yvonne E. Shands, SSRS

**Location:** Bayside C, Fourth Floor

J. Michael Dennis, NORC at the University of Chicago  
Chintan Turakhia, SSRS  
Mansour Fahimi, GfK

**Session 8:** SP

# 76th Annual MPSA Conference

April 5-8, 2018, Palmer House Hilton, Chicago, IL

## Program Chairs

Antoine Banks, University of Maryland-College Park

Irfan Nooruddin, Georgetown University

Laurel Weldon, Purdue University

## CALL FOR PROPOSALS

The 2018 meeting will take place over four days, on a Thursday morning through Sunday afternoon schedule of sessions. By submitting a proposal, individuals agree to be available to participate in sessions during any of the four days of the conference. Requests for specific days or times for participation are not accepted, except for reasons related to religious observance or unusual family circumstances.

MPSA conference sessions are organized by topic in more than 80 sections based on different subfields or areas of study. Many of these are interdisciplinary and provide participants with a new perspective on the research.

The MPSA conference is held under one roof at the Palmer House Hilton in Chicago, and includes multiple receptions, formal networking events, organized mentoring opportunities, and access to our extensive exhibit hall. Additionally, MPSA offers a variety of conference-related scholarships for working parents and graduate students, as well as a fee waiver scholarship for those from the developing world and outside of the discipline.

Follow all of the MPSA conference updates on Twitter, Facebook and Instagram. Questions about the upcoming conference? Please send us an email at [conf@mpsanet.org](mailto:conf@mpsanet.org).

# Dedicated to learning what works to improve the well-being of low-income people

MDRC was created in 1974 to learn what works to improve the lives of low-income people. The driving force behind MDRC is a conviction that rigorous tests of social and education programs — along with reliable evidence, well communicated — can make an important difference in social policy and support the well-being of low-income Americans.

We conduct quantitative and qualitative research — including the use of high-quality surveys — to evaluate, develop, and strengthen programs for low-income populations in the following areas:

- Promoting family well-being and children's development
- Improving public education
- Raising academic achievement and persistence in college
- Supporting low-wage workers and communities
- Enhancing job prospects for people with barriers to employment
- Helping vulnerable young people become independent adults
- Reducing recidivism among former prisoners

*Please stop by the MDRC booth at the AAPOR conference. For more information, contact Jo Anna Hunter, Director, Survey Unit, MDRC, 16 East 34th St., New York, NY 10016; joanna.hunter@mdrc.org.*

## **ACADEMIC CENTERS HELPING EACH OTHER HELP THE PROFESSION**

Founded in 2008, AASRO has more than 60 member organizations. We invite all academic survey units to become members and join us at our annual director's conference to discuss and address the unique issues affecting academic survey organizations.

The AASRO mission is to 1) promote excellence and integrity in survey research, 2) share information about effective management of academic survey units, 3) promote the value of academic survey research, and 4) advance the role of survey research units within our universities.

# Telephone Sampling Reinvigorated

Looking for more productivity out of your telephone sampling? STS is your answer. With almost 30 years of experience in creating accurate, representative, and productive sample, the sampling experts at STS will help you make your next telephone project a success.

STS offers scientifically constructed RDD landline and wireless, targeted wireless, called Enhanced-Wireless™, listed landline, ABS, registered voter, and B2B samples -- as well as address and phone matching services, TCPA scrubbing, and PRIZM targeting/appends. Our industry first Enhanced-Wireless™ targeted cell phone sample is targetable by hundreds of different variables, including age, income, gender, ethnicity, children, census block group, radius, polygons, and many more. STS also offers a complete array of advanced GIS based sampling techniques that are extremely useful for targeting small geographic areas, or defining custom sampling frames.

At STS we are full-service. The STS experts will provide demographic analysis, assist you with incidence calculations, offer consultation regarding sampling methodology, and will clearly provide all the options. Come see us at booth 26A and see how STS can reduce your telephone data collection costs and reinvigorate your telephone research.

**Come visit STS at booth 26A and start being more efficient.

## Making data accessible to a wider audience.

### **DDI – the DATA DOCUMENTATION INITIATIVE**

*is a free, international standard for describing data produced by surveys. It encourages comprehensive description for discovery and analysis, and supports effective data sharing.*

#### **DDI can document & manage different stages in the research data lifecycle:**

- conceptualization • collection • processing
- distribution • discovery • archiving

#### **DDI facilitates understanding, interpretation, and use by:**

- people • software systems
- computer networks

#### **DDI ensures that your data are:**

- Documented • Discoverable • Interoperable

#### **Discover the benefits.**

**DDI is being used in over 80 countries.**

#### **Major projects using DDI include:**

- Inter-university Consortium for Political and Social Research (ICPSR)
- U.S. Bureau of Labor Statistics
- UK longitudinal & birth cohort studies (CLOSER)
- International Household Survey Network (IHSN)
- Consortium of European Social Science Data Archives (CESSDA)
- German Microcensus Data Archives
- Statistics Denmark
- Statistics Canada
- Midlife in the U.S. longitudinal study (MIDUS)

What's the point of investing in a project if your base data file is garbage?

Stampede Consulting creates clean, unique datasets for your public opinion research and analytics programs. In-house proprietary tools allow us to locate and remove "bad" data so you only pay for what's useful. Our firm supports our troops. Stampede's teams rely heavily on U.S. military veterans recruited and trained for roles as interviewers, focus group or panel recruiters, and relationship marketers.
